

IntelliSwitch®

Smart-timers™

Take back control of your powerbill

FOR:

COST EFFECTIVE

- Warm towels, without the 24hr power bill.
- Set heaters to turn off automatically so you don't waste power.
- Popular for school or office bathroom lights so you only use power when you need to.

SAVE
2/3

*or more on
your towel rail
running costs*

Your savings could be \$120 per year* or more depending on the cycle you select.

* Based on a 100w towel rail.

CONVENIENT

No more waiting around – let IntelliSwitch® turn your appliance off for you **while you get on with your day.**

- Perfect for bathroom fans and heated towel rails.
- Can function just like a normal on-off switch, or use the extra intelligence it offers.
- Easy to install and fits existing flush boxes.

NEW

SAFE

- Set a light to stay on until older family members get into bed to encourage independent living.
- Set lights to turn on when you're away.

IntelliSwitch®
what a bright idea!
